Dahua Temperature Monitoring Access Control

Temperature Monitoring/Face Recognition/Integration

- WDR Camera
- 2.5D Curved Screen
- Liveness Detection
- Large Capacity
- Anti-glare Interferance
- Accurate Temperature Measurement
- Mask Recognition
- Fast Recognition Speed
- Abnormal Temperature Alarm

Contactless

Non-contact temperature detection, temperature monitoring distance range: **0.3m – 0.8m**

High Accuracy

Temperature monitoring accuracy: **±0.3°C**

Quick Response

Face recognition time: **0.2s**

Temperature monitoring time: **0.2s**

Easy Installation
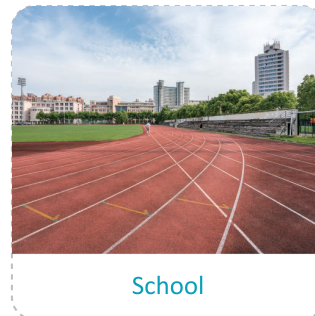

Easy to install and deploy

Good Compatibility

The temperature monitoring access control terminal can be integrated with third-party devices

Key Features

Normal Temperature

Abnormal Temperature

Normal Temperature

Abnormal Temperature

- Face recognition is integrated with body temperature monitoring, no additional staff required.
- Non-contact access to reduce cross-infection.
- Large storage of face images and temperature information for easy back-tracking.
- Fast access to prevent congestion.
- Supports third-party turnstile integration.

Application Scenario

Commercial Building

Apartment

School

Factory

Solutions

Desk Mount : ASF072X-T1
Wall Mount: DHI-ASI7223X-A-T1
Standing Mount: DHI-ASI7223X-A-T1 + DHI-ASF172X-T1 (Bracket)

Terminal + DSS-Express

· Temperature Accuracy: ±0.3°C
· Temperature Monitoring
  Distance: 0.3m~0.8m
· Sound Prompt: Abnormal
  temperature alarm

DHI-ASI7223X-A-T1 + DHI-ASGB810X

Terminal + Turnstile + DSS-Express

· Temperature Accuracy: ±0.3°C
· Temperature Monitoring
  Distance: 0.3m~0.8m
· Sound Prompt: Abnormal
  temperature alarm

DSS-Express

Wall   Standing   Desk

DSS-Express
